

# ZOE QUINLAN

[zquinlan@deloitte.com](mailto:zquinlan@deloitte.com) • (786) 856-8438 • (615) 801-4611 • Nashville, TN • <https://www.linkedin.com/in/zoe-quinlan/>

Cybersecurity professional with experience leading vulnerability management and external attack surface reduction across cloud and on-prem environments. Excellent cross-functional coordination with cyber, legal, infrastructure, and application teams to triage risk, drive remediation, and improve security posture. Proven people leader with experience guiding analysts and training team members. Strong background in vulnerability tools, data analysis, project/program management, effective communication, presentation skills, and a CISSP credential.

## EDUCATION

### **Florida International University**

BSc Information Technology – Software | Minor in Project Management

### **Clarence Fitzroy Bryant College**

AA Information & Communication Technology

**Miami, FL**

Aug 2016 – May 2019

**Basseterre, St. Kitts**

Aug 2013 – May 2015

## EMPLOYMENT

### **Deloitte – Senior Threat & Vulnerability Analyst – Office of the CISO**

#### **Perception Monitoring Program Lead**

**Hermitage, TN**

**Oct 2021 – Present**

- Own and lead the Perception Monitoring program, managing a team that addresses client inquiries and the lifecycle of public-facing vulnerability identification, triage, and remediation for 6,000+ internet-facing assets in cloud environments and on-prem.
- Lead and coach a team of 3 analysts across various time zones and geographies by delegating remediation activities, managing workstreams, and providing direction for vulnerability triage, validation, escalation, and closure.
- Operationalize findings from 3 main risk rating platforms into actionable remediation items, validating risk and attributions, and eliminating false positives.
- Develop and maintain automation, scripting, and AI-enabled solutions to improve efficiency, including a retrieval-augmented GenAI assistant for client inquiry responses and an AI agent concept for weekend support operations.
- Coordinate perception monitoring and public-facing deliverables for the ServiceNow transformation project, partnering with project stakeholders to support a multi-million-dollar enterprise initiative.
- Perform ad hoc analysis and data cleanup across large, complex datasets from multiple platforms to support rapid security response, prioritization, and reporting.
- Draft and deliver executive communications and presentations to Cyber leadership on emerging exposures, pending remediation issues, and client-facing cybersecurity matters.
- Partner with Cyber leadership, Risk & Brand Protection, and OGC to respond to client and third-party cybersecurity inquiries using evidence-based narratives supported by investigations and validated security data.
- Partner with and escalate to cloud, network, application, and BISO stakeholders where appropriate.

### **Associate TMO Analyst – Program Management Office (PMO)**

**July 2019 – Sep 2021**

- Coordinated PMO activities for both Cyber & Talent portfolio initiatives, supporting schedules, milestones, and financials.
- Supported portfolio governance and delivery for cyber and talent related programs, helping drive consistency and quality through the creation and maintenance of project documentation
- Led all onboarding and offboarding for the 50+ US PMO members to reduce downtime and optimize resources.

### **ITS Program Management Office Intern**

**June 2018 – August 2018**

- Provided portfolio support for reporting, data analysis, and data presentation of the Risk & Brand Protection and OGC portfolios.

## CERTIFICATIONS & SKILLS

**CERTIFICATIONS:** Certified SAFe 5 Agilist, Microsoft Certified: Azure Fundamentals (AZ-900), CISSP, *CCSK (in progress)*

**VULNERABILITY & EXPOSURE MANAGEMENT:** Qualys, CyCognito, BitSight, RiskRecon, SecurityScorecard

**INFRASTRUCTURE:** Azure, Windows administration, endpoint security, TLS/SSL, certificate configurations, network ports

**DATA & AUTOMATION:** Python, SQL, PowerBI, workflow automation, scripting, GenAI and RAG framework

**LEADERSHIP:** coaching, cross-functional coordination, workstream management, executive communication

## COMMUNITY INVOLVEMENT & VOLUNTEERING

- Youth Excelling in Learning Leadership (YELL) Chair
- Hermitage Well-being Committee Chair
